Please do not pass SB 650. Where is all this anti second amendment going to stop?!? It seems like you won't be happy unless every single firearm, regardless of age, is out of every single citizens possession.

I just purchase property here two years ago and I've begun considering moving out again. If you pass any more unconstitutional laws regarding the second A, I will be out of this state asap. And I'd bet you'd be happy to see all pro second A people leave.

Respectfully
